General

This policy outlines the approach by which the Association of Public Health Epidemiologists in Ontario (APHEO) manages its policies and procedures. APHEO policies and procedures are to be consistent with the mission and goals of the Association.

A policy outlines a predetermined course of action or a set of principles that shall be followed by APHEO members related to a given topic area. A procedure provides the detailed process and responsibilities of relevant parties as needed to abide by the corresponding policy.

Policy

1. The APHEO Executive Committee is responsible for drafting new policies and procedures, as required.
2. The APHEO Executive Committee is responsible for reviewing and updating existing policies and procedures on a regular schedule, as stated in the corresponding procedure.
3. New policies and revisions of existing policies will become effective when approved by the Executive Committee. The Executive Committee may choose to hold a vote for membership approval in accordance with APHEO's Constitution (6.2 Voting on Motions). Formatting and minor editorial changes (e.g., grammatical corrections) that do not change any policy meaning or content will not be considered formal revisions and require acknowledgement but not formal approval.
4. Procedures will be updated, reviewed, and enacted by the Executive Committee as needed and do not require a vote by members.
5. Most of the time, policies will have a corresponding procedure. Policies and procedures will be formatted in a standardized template that includes at minimum a title, creation date, revision dates and a logical numbering system.
6. All approved policies and procedures are to be made publicly available in PDF format on the APHEO website.

Procedure 1.1 Issuing Policies and Procedures

Created: 1999/11/19

Last Revised: 2022/04/08

Corresponding [Policy 1.1](#)

General

This procedure document guides the APHEO Executive Committee on the management of policies and procedures. The Vice President (VP) holds primary responsibility for policy and procedure management, though policy development and revisions may be completed by any Executive Committee member.

Procedures

1. Existing policies and procedures should be reviewed by the Executive Committee at least once every three years. A policy or procedure may be flagged for review at any time if issues are identified between regular scheduled reviews.
2. The VP will ensure current policies and procedures are available to members in a user-friendly format on the APHEO website.
3. The VP will maintain copies of all current policies and procedures in PDF as well as a modifiable format (e.g., .docx or Google Docs). The VP will also maintain historical policy and procedure records where they exist.
4. New policies and procedures will follow a standardized template that includes, at a minimum, the following features:
 - a. A clearly defined name.
 - b. A unique policy or procedure number, according to a logical numbering system. Corresponding procedures should accompany the policy and be assigned the same number.
 - c. A documented creation date (i.e., the date of formal approval).
 - d. Documentation of all past revision dates.
 - e. Designated responsible Executive Committee lead(s). The default will be VP, but others should be assigned when relevant to their Executive role.

General

APHEO members are expected to support and advance the interests of the organization. This policy establishes a standard of conduct for APHEO members to disclose any conflicting interests, actual or perceived, in any matter under consideration by the APHEO Executive Committee or APHEO working groups.

A conflict of interest, actual or perceived, is a situation where an individual or an organization affiliated with the individual (by means of representation or vested interest) has a direct or indirect competing interest in the decisions made by the APHEO Executive Committee or working groups, or is in a position to benefit from these decisions.

Under this policy, the APHEO Executive Committee considers the following to constitute a real or perceived benefit in relation to APHEO business:

- Direct financial remuneration;
- Indirect remuneration through contractors conducting business with APHEO;
- The interest or values of an individual or organization are in competing interest with those of APHEO.

Policy

This policy applies to all APHEO members and their immediate family members related to any APHEO business.

- APHEO members and non-APHEO members participating in APHEO working groups must be aware of any possible conflicts between their business or personal interests and their responsibilities to APHEO.
- APHEO members or non-APHEO members participating in APHEO working groups, who believe they may have a potential conflict of interest, actual or perceived, must promptly disclose the details of such conflict as per the corresponding procedure.
- All APHEO-initiated contractual agreements must contain a requirement for all contractors and/or associates to disclose any actual or perceived conflicts of interest as per the corresponding procedure.

Corresponding [Policy 1.3](#)

General

This procedure document complements the corresponding policy and details the steps to disclose and resolve an actual or perceived conflict of interest.

A conflict of interest, actual or perceived, is a situation where an individual or an organization affiliated with the individual (by means of representation or vested interest) has a direct or indirect competing interest in the decisions made by the APHEO Executive Committee or working groups, or is in a position to benefit from these decisions.

Under this policy, the APHEO Executive Committee considers the following to constitute a real or perceived benefit in relation to APHEO business:

- Direct financial remuneration;
- Indirect remuneration through contractors conducting business with APHEO;
- The interest or values of an individual or organization are in competing interest with those of APHEO.

Procedures

Disclosure of a conflict of interest, whether actual or perceived, must take place as soon as the APHEO member becomes aware of the conflict.

1. As part of all meetings related to APHEO business, (e.g., Executive meetings, Working Group meetings, General Membership meetings, Planning Committee meetings), all agenda items will be reviewed and the Chair will ask for verbal declarations of conflict of interest and these will be recorded in the minutes.
2. All declarations of conflict of interest will be recorded in the meeting minutes.
3. The Executive and/or working group member (including contract employee) in conflict will resolve the matter using one of the following options:
 - a. Abstain from discussion and vote (if applicable) concerning the agenda item where they are in conflict.
 - b. Leave the meeting until the agenda item in conflict is discussed and handled by the remaining Executive members.
 - c. Resign from the Executive Committee, working group or contract position where the conflict contravenes the policies of APHEO.

[Policy 3.3 Contracting of Services](#)

[Policy 5.1 APHEO Conference and Workshop Planning](#)

General

The purpose of this policy is to define the circumstances for which APHEO operations will be suspended. The corresponding procedure, Operations During a Public Health Emergency, provides more detailed instructions to APHEO Executive, work group chairs/project managers and APHEO representatives on external committees, of their roles and responsibilities during an emerging or declared public health emergency.

This policy applies to a provincial or federal public health emergency. A public health emergency is defined as: a situation or an impending situation that constitutes a danger of major proportions that could result in serious harm to persons or substantial damage to property. Causes can include: forces of nature, a disease or other health risk, an accident or an act whether intentional or otherwise (*Emergency Management and Civil Protection Act*).

Policy

APHEO Operations may be suspended by the APHEO president or designate for a period of time during a provincially or federally declared public health emergency. The extent to which operations are suspended will depend on the severity of the emergency and will be decided by the APHEO President and Executive committee, in consultation with work group chairs/project managers and APHEO representatives on external committees where deemed necessary by the President and Executive Committee. However, the suspension of operations will not affect any existing contractual/financial obligations of APHEO.

- Inform the Executive Committee of the outcome of these discussions.

5. APHEO Executive Committee:

Created: 2021/07/23

Last Revised: 2022/01/28

Corresponding Procedure [Policy 1.5](#)

Related Policies: (none)

General

The Associations for Public Health Epidemiologists in Ontario (APHEO, “the Association”) is a non-profit organization run entirely by its members, who volunteer their time by participating on numerous committees and work groups, furthering the mission of the Association.

The APHEO Executive Committee is occasionally asked to formally endorse letters of support for various advocacy, research activity and other public-health related activities.

This document is intended to provide guidance to the APHEO executive in making decisions about whether to endorse letters of support on behalf of APHEO.

Within the context of this guidance, endorsement means the act of expressing support or approval publicly for a cause or proposal.

Policy

All requests for letters for support on behalf of APHEO are to be brought to the executive committee for discussion and consideration. The executive committee should evaluate the requests against the following guiding principles, and any other relevant considerations (e.g., political considerations, capacity).

Only the APHEO Executive, by a majority vote, can decide whether to offer an endorsement for a letter of support.

Guiding principles for endorsing letters of support

1. Letters of support shall advance APHEO’s mission and goals as articulated in APHEO’s Constitution.
2. Letters of support shall not conflict with APHEO’s mission and goals as articulated in APHEO’s Constitution. This includes both actual and perceived conflicts of interest.
3. Letters of support should align with APHEO’s current or most recent strategic priorities as articulated by APHEO’s Executive Committee.
4. Letters of support should be non-partisan in nature to avoid any detrimental impacts on APHEO’s reputation.
5. Letters of support should reflect work that APHEO is directly involved in or work that its membership is directly involved in.

Responsible Executive Committee Lead

The default responsible party is the President, acknowledging that policy/procedure administrative work is primarily done by Vice President but that responsibility ultimately lies with the President, unless directly falling within a specific Executive portfolio (e.g., denote Treasurer for financial policies, Secretary for membership policies).

General

In order for APHEO to achieve its goals, it depends on its members to participate in the activities of the Association. Members are frequently asked to sit on committees by the APHEO Executive Committee and whenever possible reasonable travel and incidental expenses related to this work will be supported by APHEO. The purpose of this policy is to provide guidelines on travel and incidental expense coverage for APHEO members representing APHEO on these activities.

Policy

Funds from the APHEO budget will be set aside annually for travel and incidental expenses. Reimbursement will be based on a first-come first-served basis for the most economical, practical route. Expenses include travel, accommodation, food and non-alcoholic beverage costs. Reimbursement and the maximum reimbursement per claim are described in the Travel and Incidental Expense Coverage procedure. Reimbursement is available only after costs have been incurred. Advances on expenses will not be provided. All reimbursed costs, except per diems, require original receipts.

Eligibility Criteria

1. APHEO members who are asked by the Executive Committee to participate in committees as an APHEO representative are entitled to request coverage of travel expenses.
2. APHEO members must apply for travel expense coverage from other sources first. If no other sources can be found, or can cover only part of the expenses, the member may then approach the Treasurer for travel expense coverage.
3. Speakers for educational sessions at APHEO meetings will also be eligible for travel reimbursement consistent with this policy.
4. Any expenses other than travel or accommodation are subject to approval by the Executive Committee.

Last Revised: 2016/10/25

Corresponding [Policy 3.3](#)

General

The procedure document complements the corresponding policy and guides the APHEO Executive Committee on how consulting and professional services should be retained.

In order for APHEO to achieve its goals, it depends on its members to participate in the activities of the Association. There may be times when specific projects require additional resources or expertise beyond what is available through its membership.

Procedures

1. Request for Quotation (RFQ)

- A Request for Quotation is a solicitation from the Association to external suppliers inviting them to submit an offer to the Association so that APHEO can purchase specified consulting or professional services at a fixed total amount, including all expenditures (e.g., travel, accommodation, meals, printing, etc.). The RFQ will include the project scope and description along with selection criteria.
- A Request for Quotation from qualified candidates is the appropriate method to use when tasks and deliverables are highly specific. As a result, there is a low likelihood of much variation among the approaches to be submitted. An RFQ usually specifies a fixed cost and the most competitive price is the major factor for evaluation. Such calls will result in a formal contract.
- For purchases expected to exceed \$1500, a minimum of three written quotes will be sought from at least three suppliers. All submitted RFQ will be reviewed by the Executive Committee using predetermined criteria within a transparent process.

2. Request for Proposal (RFP)

- A Request for Proposal is a solicitation from the Association to external suppliers to submit an offer to provide goods or services, including professional or consulting services, as a basis for negotiations for entering into a contract. The RFP will include the project scope and description along with selection criteria.
- A Request for Proposal from qualified candidates is the appropriate method to use when there is a complex technical, professional or managerial problem or matter to be resolved for which there is often no clear or single solution. While the goal, timing, requirements or results desired is often describable, the method or way of reaching

results may be left to proponents to submit for comparative evaluation. As a result, price is not usually the primary factor for evaluation, although value and cost-effectiveness will still be evaluated and will be required of the successful candidate. All submitted RFPs will be reviewed by the Executive Committee using predetermined criteria within a transparent process.

3. Sole Source Situations

- Sole Source means entering into a commitment outside of the Request for Quotation (RFQ) or Request for Proposal (RFP) process. The Executive Committee may waive the RFP and RFQ process in cases where normal purchasing procedures are not possible (i.e. emergencies, time constraints or where for economic reasons it is not possible to follow accepted procedures) or where the service or product is specialized or unique.

4. Ongoing Service Provider

- If there is an ongoing working relationship already established for a particular service the Executive Committee may waive the RFP and RFQ process if they are satisfied with the quote and service provided by the established provider.

5. Recruiting for a Contract Position

- Recruiting for a contract position requires a solicitation from the Association to individuals to submit a resume as an application for competitive consideration.
- Recruiting for a contract position is the appropriate method to use when there is a specific project with set funds allocated to a specific deliverable (for example: Project manager, work group member, module review, consultant). This will result in a recruitment and selection process as well as a formal contract. Recruitment will include posting a position description, the salary range, application deadline and the required qualifications and experience. The selection process will be conducted by a subgroup of the Executive Committee using predetermined criteria within a transparent process.
